## **DETAILED ACTION**

### ***Drawings***

The drawings are objected to because elements 30 and 32 are discussed in the specification but are not shown in the drawings. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 2 is rejected under 35 U.S.C. 102(b) as being anticipated by Ader '855.

Ader teaches a multi-purpose fisherman's device which is structurally similar to the Applicant's shellfish opening tool. The tool of Ader includes a first handle 12, a second handle 13 and a pivot connection 20 pivotally connecting the first handle to the second handle. A rip element 15A is one piece with the first handle 12 and includes a pointed end that is spaced apart from the first handle. A pad 15B is one piece with the first handle and includes a first surface having a plurality of serrations on the first surface and is oriented to face the pointed end of said rip element.

### ***Allowable Subject Matter***
